## OBJECTIVES

A Computer Science & Engineering student seeking an entry-level opportunity to apply technical knowledge, analytical thinking, and problem-solving skills in a professional environment while continuously learning and contributing to organizational growth.

## EDUCATION

|                                                                                                                    |                     |                         |
|--------------------------------------------------------------------------------------------------------------------|---------------------|-------------------------|
| <b>Bachelor's of Engineering – Computer Science &amp; Engineering</b><br>A J Institute of Engineering & Technology | <b>2023-Present</b> | <b>CGPA: 8.45</b>       |
| <b>Senior Secondary (12th) - KSEAB</b>                                                                             | <b>2021-2023</b>    | <b>Percentage: 87.6</b> |
| <b>Secondary School (SSLC) - KSEEB</b>                                                                             | <b>2020-2021</b>    | <b>Percentage: 81.4</b> |

## TECHNICAL SKILLS

**Languages:** Python, C, Java.

**Interface:** HTML, CSS.

**Database:** SQL.

**Tools:** MYSQL, Eclipse IDE, Visual Studio Code, Jupyter.

**Technologies:** Web Development.

## PROJECTS

### **Animal Sound Detection (YAMNet):**

Developed a web app that classifies animal sounds from uploaded audio files using the TensorFlow YAMNet pre-trained model, with a Flask backend and responsive HTML/CSS interface. Focused on audio preprocessing, confidence-score display, and smooth local deployment for reliable user experience.

### **Hospital Management System:**

Built a web-based portal for patient registration and appointment scheduling using HTML/CSS and MySQL. Designed simple page flows and database integration to ensure easy data entry and retrieval.

## CERTIFICATIONS

- **AI Innovation 2025** – Microsoft Azure Learning Challenge
- **Certified Java Programmer** – Infosys Springboard
- **Data Analytics with Python** – NPTEL
- **Hands-on Robotics** – St Aloysius

## Co-curricular

- **Core Member, IEEE Computer Society, AJIET Student Branch**
- **VTU Ideathon 2025 Participant** – Developed technology solutions for regional challenges
